Usage medians and F2P

Separate 20-run snapshot · four models

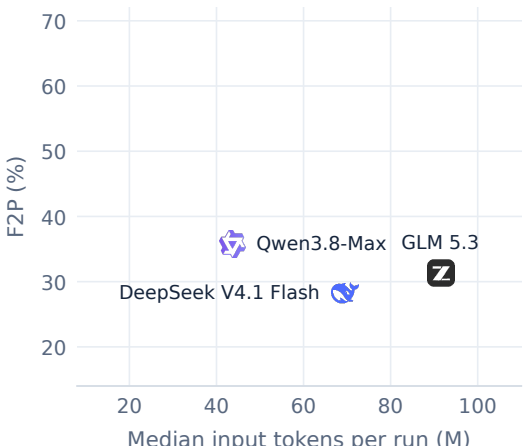

a Model calls

4 models · median per run

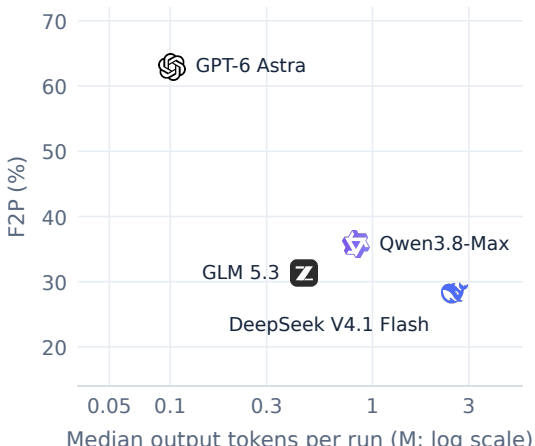

b Input tokens

3 models · median per run

c Output tokens

4 models · median per run · log scale

X: 20-run usage medians. Y: paper F2P on the full release, not the 20-run subset.
GPT-6 Astra input median is unavailable; its aggregate total is not used. M = 1,000,000 tokens.
